

The Georgia Utility Training Academy is a state-of-the-art training facility set on 4 ½ acres, specializing in Confined Spaces, Excavation and Trenching Safety, GSWCC Erosion Control, Damage Prevention, and other services.

GUTA focuses on providing cost-effective training for municipalities and utility contractors across the entire southeast. The training does not end in the classroom and workshop of the 4,000-square foot building; it continues with different hands-on aspects for Confined Space Entry, Flagging, and Erosion Control.

Our trainers of GUTA are certified professionals who have met or exceeded industry requirements. Each trainer possesses comprehensive knowledge in his/her respective field. After leaving GUTA, you can expect to have the knowledge, skills, and abilities to perform job-related tasks and exceed standards in your field.

As you are considering sponsoring a training facility to meet the needs of your employees, consider GUTA. We stand ready to serve.

Sincerely,

Jimmy Davis
Training Specialist

Excellent training is a shared responsibility.
